Our Theme

Department of Medical Imaging Technology conducts a full-fledged undergraduate program of B.Sc. in Medical Imaging Technology since 2016. The program aims to provide quality education through formal didactic and state-of-the-art clinical experiences that will render qualified, patient-focused, compassionate, critical thinkers Radiologic Technologist for the community who are engaged in lifelong learning. In order to pursue academic excellence, department of Medical Imaging Technology is organizing a National Level Conference where we are inviting technologists from reputed Hospitals, Applications Specialists from leading Medical Companies as well as Doctors for Clinical updates. Success of the conference will update participants and build their confidence for their future endeavors.

CHARUSAT University

CHARUSAT is accorded the status of a university under Gujarat State Act No. 8 of 2009. CHARUSAT is also empowered to award degrees by UGC under Section 22 of the UGC Act, 1956. The name Charotar University of Science and Technology has been conceived to pay tribute to the region – Charotar (the golden land) where it has originated. The shadow structure with Academic Council, Board of Studies, Curricula and Syllabi was ready beforehand. In the transition phase and ingraining phase, President Shri Surendra Patel and Secretary Dr. M C Patel of Kelavani Mandal provided honorary services as the President and the Provost of CHARUSAT respectively

Mission

To serve society by striving to transform it through creation, augmentation, dissemination and perpetuation of knowledge.

Vision

To become a dynamic global institution in a knowledge driven world through excellence in teaching, research and social contributions

Charotar Institute of Paramedical Science (CIPS)

Charotar institute of paramedical sciences is established in 2016 with the aim of providing quality education in the field of paramedic. At CIPS it's aimed to create next generation health care professionals through quality education, extensive Clinical training and community services. The skilled professional of CIPS is also compassionate human being with empathy towards patients contributing in quality health care delivery.
